

A MESSAGE TO OUR PATIENTS

At our dental practice, the health and safety of our patients and employees are our priority amid the concerns about the spread of the corona virus disease (COVID-19).

We want to assure our patients that we strictly adhere to the infection control procedures we ordinarily follow. This includes thorough cleaning and disinfection of all equipment, chairs, rooms, countertops, and anything anyone touches. We utilize the latest in sterilization techniques for sterilizing instruments with autoclaves that are regularly tested for effectiveness. Although these are our usual, routine measures, the current health concerns with this virus makes them even more important.

We ask for your help in preventing the spread of COVID-19 and other illnesses. If you are not feeling well, have a fever, cough, shortness of breath or have traveled to areas where the virus is widespread, we kindly ask that you reschedule your appointment until you are feeling completely well.

Thank you.

Your Oral Health Team
